EXPERIENCE

BookNet Canada *Toronto, On*

July 2014 to present – UI-Web Designer (contract)

SalesData.ca redesign; project scope includes all wireframes, IA, Prototyping and all other front-end UI design; developed HTML/CSS-SCSS front-end style guide framework.

"Heading up the complete redesign of this data reporting tool used by the Canadian and international publishing industry. The overall function and form required a complete overhaul from the ground up, as the requirements for the nature of this site were very specific and strict."

University of Toronto – School of Continuing Studies *Toronto, On*

November 2013 to July 2014 – Web Designer (contract)

learn.utoronto.ca daily maintenance and updates; design & development of wordpress themes/templates for internal microsites; development of new coding standards and branding guidelines; design of IT department initiatives.

"Oversaw the front-end development several high traffic sections on the learn.utoronto.ca website, as well as implemented new clean/efficient coding standards used by the development team."

GelaSkins(Nuvango) *Toronto, On*

June 2011 to June 2013 – Interactive Designer/Front-End Developer

Built the overall structure of the new gelaskins.com website from the ground up; managed development and customization of all site templates; rewrote custom CSS framework for the entire retail project.

Questrade Inc. *Toronto, On*

May 2010 to June 2011 – Front-End Designer/Developer

Lead the front-end development of new client-facing website my.questrade.com as well as daily maintenance and updates of company websites and intranets; responsible for planning/strategy and creative direction of digital marketing campaigns; development of business requirements for programs, planning information structure, user experience and product documentation.

Marie Curie Cancer Care *London, UK*

Aug 2008 to Nov 2009 - Web/Graphic Designer

Led the creative development and execution of digital collateral for marketing initiatives across the website, microsites, online advertising and newsletters; developed brand guidelines to create and ensure consistency.

House & Home Media/Canadian House & Home Magazine

Toronto, On

July 2005 to June 2008 - Senior Web Designer

houseandhome.com daily maintenance and updates; managed all aspects of online marketing campaigns and collateral; coordinated cross-promotional digital marketing initiatives with advertisers, managing relationships with agencies, clients and suppliers.
